

BUSINESS UPDATE - FITNESS4LESS BRIERLEY HILL, DUDLEY

Fitness4less are in the process of seeking planning permission for the redevelopment of the site in Brierley Hill, Dudley. The proposals include a complete demolition and re-build of the premises, and will include some housing, parking and a brand new state of the art fitness centre. This new gym will incorporate 14,000 square feet of space, on two levels, with all fantastic new facilities including a swimming pool, ladies only and mixed gyms, studio, spin room and weight training space.

We have been aware that facilities at the site presently are not up to our expected standards and there are fundamental issues with the roof. However with larger and more extensive plans in the pipeline, we are not in a position to implement interim upgrades as we would perhaps like.

However, we can assure you the following, the facilities will continue to be run and do conform to all health and safety standards at all times, your safety is our first priority. All members and staff will be kept fully informed and given good notice prior to any changes to operations, closure or building works. Any pre-paid memberships will be re-imbursed, should the facilities close prior to the term of the membership ends.

As timings and progress is currently in the hands of the Planning Department, we will keep all parties updated as and when we can. Any questions, please direct to our Manager on site Russell Ribeiro as your first point of contact and we will support him in any matters he is unable to assist you with directly.

Once the planning application is processed, we will be issuing further information about the new club, its layout and facilities, please watch this space for further information.

Kind Regards

Steve Bradley
Operations Director
